Empower your employees to think like business owners.

Through the power of play, **Celemi Apples & Oranges™** participants get an overview of how their whole organization functions, and can relate their daily actions and decisions to the company’s profit and loss statement, balance sheet, and cash flow statement. Participants are grouped in teams. Each team runs a company and competes with other teams to complete the most successful financial statements. The learning curve is steep, but with their new insight, participants come up with ideas on how to improve profitability.

Celemi Apples & Oranges™ is a ready-made learning experience designed to help participants get a big-picture understanding of how their decisions and actions affect financials. Available in a board-based or all-digital format, both versions feature facilitator-led sessions for a virtual or physical classroom.

Participants in teams of 4 learn from each other while solving business dilemmas together. The highly interactive simulation is closely tied to their reality. A variety of challenges and some fun competition help participants learn by doing.

Celemi Apples & Oranges™ comes in 5 versions. Each is highly adaptable to fit context, target group, and overall purpose:
